Step right out in FASHION

Gone are the days when socks were just things to wear under one's shoes. No longer are they drab, everyday necessities. Socks today are lovely to look at, delightful to own — and, with Bear Brand, heaven to knit. For the men in your life — for children — and for yourself, too, hand knit socks are high fashion . . . colorful . . . and an essential accessory for every wardrobe!

In this new Bear Brand Sock Book you will find a handsome collection of beautiful hand-knit socks for you to make. And actually, even if you're only a beginner, you'll be able to make the most difficult pattern in this book. For the knitting instructions are clear and easy to follow. And — as a double check — before you start working on the pattern you've selected — read the "Do's and Don'ts" near the back of the book . . . they contain many important general instructions.

Incidentally, each set of instructions calls for the use of particular needles and yarns. Use the needles and yarns specified. It's important.

So choose your patterns from these brand new, exciting sock styles. Naturally, the classics are included — ribs and cables — along with our wonderful new sock fashions!

And one thing more — if you want your finished article — whether it's for a man, woman or child — to stay true to size — to look particularly wonderful — to wear, to wash — to be absolutely perfect — use BEAR BRAND WONDERIZED anti-shrink, permanent fit yarns! Standard Washing Instructions

Before washing lay socks flat on heavy wrapping paper and with pencil draw an outline around them. Make thick suds with hot water and soap flakes; add cold water until lukewarm (pure wool articles must never be washed or rinsed in water exceeding 100°—comfortable wrist temperature).

Immerse socks and gently work suds through them—do not rub or twist. Rinse thoroughly in three lukewarm waters immediately after washing, squeeze gently between hands to remove soap. Keep the socks supported in the hands at all times during washing and rinsing. Do not twist or wring.

After final rinsing, gently squeeze out excess moisture between hands. Roll socks loosely in turkish towel to remove balance of moisture and unroll at once. Remove from towel, then lay on paper diagram and shape to original outline. Allow to dry on paper at room temperature away from heat. Socks will dry to original size.

Socks may be dried on forms—after shaping sock to form, lay flat to dry; do not hang.

NOTE: Never allow knit articles to soak; never boil or use hot water; never use strong soap or soda; never hang to dry.

Steaming

To steam socks, lay flat on pressing board. Pin edges if necessary.

Place damp cloth over sock and steam with moderately hot iron. Turn sock and steam on other side. Super-Spun Nylon does not require steaming.

Helpful Hints

TO CAST-ON—Make a loop, leaving a long end and slip loop to needle; with loose end, make a loop on left thumb; insert needle in this loop and with end attached to skein (or ball), k a stitch on needle, see Figure 1; tighten loose end with left hand.

TO WORK WITH 4 NEEDLES—Cast on required number of stitches to 3 needles, join and knit around, see Figure 2.

When **CASTING ON STITCHES FOR SOCKS,** it is important to cast on loosely so that cuff will not be too tight.

CHECK YOUR GAUGE—In order to obtain a correct fit it is very important to knit to the gauge given in instructions for socks you wish to make. If your gauge is too loose use smaller needles to tighten gauge. If your gauge is too tight use larger needles to loosen gauge.

It is very important to keep an **EVEN TENSION** on your knitting at all times.

When **WORKING WITH BOBBINS,** do not wind too much yarn on a bobbin at one time. Keep the bobbins close to the work, unwinding only a small amount of yarn from bobbin as required. This will help to keep the bobbins from tangling.

When **WORKING FROM CHARTS,** read chart from right to left on the knit row; read from left to right on purl row.

When **CHANGING COLORS,** always bring color to be used under last color used, see Figure 3.

TO TURN HEEL—Work as given in instructions. Heel is turned by working short rows on a given number of sts at center of heel as follows: slip first st, work across center section working last st tog. with next st on side section, then work 1 more st of side section, turn. (There will be 1 more st on each succeeding short row.) Continue until all sts of side sections have been worked to center section.

TO PICK UP STITCHES on side of heel for gusset, insert needle in back loop of slipped stitch on side of heel and knit a stitch, see Figure 4.

TO MEASURE LENGTH OF FOOT—Place tape measure on sock from tip of heel to end of foot, see Figure 5, allowing 1½, 1¾ or 2 ins. for toe, as specified in instructions for the sock you are making.

WEAVING TOE—Thread end of yarn into a tapestry needle and weave sts together as follows:— * Pass needle through first st of front needle, as if to knit, and slip the st off—see Figure 6. Pass through 2nd st, as if to purl but leave st on needle—draw yarn through first st of back needle, as if to purl, slip st off—draw yarn through 2nd st, as if to knit, leave st on needle; repeat from * until all sts are joined, see Figure 7; fasten off. Take care to draw up yarn so that tension of woven sts will match knitted ones.

DUPLICATE STITCH—See Figure 8.
